BEFORE YOU USE ANY DOCUMENT

1. Replace every **[highlighted bracket]** with your real details: legal entity name, address, licence or registration numbers, deposit and cancellation rules, governing law. Nothing in this pack has been invented for you.
2. Have a **travel-industry lawyer** review the agreements, acknowledgements, payment authorization and consent form for the countries you sell in. Documents marked **DRAFT FOR LEGAL REVIEW** carry that tag; remove it only after review.
3. Save each filled document as a PDF named with the client and booking reference, for example *WBM-2026-0001_Smith_ClientServicesAgreement.pdf*.
4. Use an e-signature service for the signed documents so every signature is dated and recorded.

SECURITY RULES (ALWAYS)

Never put wallet addresses in emails, chats or documents. Payment is made only on the official WBM payments page. No consultant collects payments, private keys or seed phrases.

- Passport and personal details travel only through a secure form or portal, never plain email. Collect them after payment and delete them after the trip as your privacy notice states.
- Keep signed copies of everything for the period your accountant and lawyer advise.
- Cross-reference every document by the same booking reference, invoice number and receipt number.
