DATA PROTECTION & PASSPORT HANDLING STATEMENT

Version 15 October 2026

This statement explains how World Bridge Meridian handles the personal data travellers give us, passports in particular. It is written for travellers, and for the organisations that appoint us.

01 WHO IS RESPONSIBLE (DATA CONTROLLER)

World Bridge Meridian is a branch of **World Bridge Global Consulting LLC**, an Illinois limited liability company (Illinois file number 65372891). It is the controller of the personal data you give us. Registered office: 55 Mid-Continental Plaza Bldg, 17 E Monroe St, Chicago, IL 60603, United States. Legal representative: Earl Anderson, Founder & Chief Executive Officer. **Privacy contact:** info@worldbridgemeridian.group (please write “Privacy” in the subject line).

02 WHAT WE ASK FOR, AND WHY

WHAT	WHY WE NEED IT
Full name, date of birth, nationality, passport number and expiry date; a photo of the passport page (optional to upload)	To book flights and accommodation in the name on your passport and, where needed, to support an entry permit such as the UK ETA.
Phone, email, emergency contact	To reach you, and to look after you if something goes wrong while you travel.
Dietary needs, allergies, room preferences	To arrange your stay and meals properly.
Details of people travelling with you	The same purposes, for each companion, with their knowledge.

Our travel form does not ask for your card or bank details. Card payments for invoices are made on the payment provider’s own secure page; we never see or store card numbers.

03 WHERE IT IS STORED

- Our platform and its data are hosted in the **European Union (Ireland)**.
- Passport photos are kept in **private file storage**. They are never public, and they open only through short-lived private links (valid for one hour).
- Passport numbers are stored with your travel form and your signed travel authorisation. They are never copied into your account profile.

04 WHO CAN SEE IT

- You can see your own information. Inside World Bridge Meridian, only the travel coordinator looking after your trip and our management team can see your passport details. This is enforced by the database itself (row-level access rules), not only by the screens staff use.
- Airlines, hotels and other suppliers receive only what they need to make your booking.
- We never send passport copies by email. When you upload a file, our team is told by notification, but the file stays in private storage and staff open it only after signing in to our secure staff site. Passport numbers are partly hidden in our internal notifications.
- We do not sell personal data, and we do not use it for unrelated marketing.

05 HOW LONG WE KEEP IT

WHAT	HOW LONG
Passport photo and passport number	Permanently deleted 14 days after your trip has been confirmed, or sooner if you ask.
Other travel details (emergency contact, preferences, companions)	Deleted [12 months] after your last trip ends, or sooner if you ask.
Invoices, receipts and payment records	Kept only for the period tax and accounting law require.

06 YOUR RIGHTS

You may ask us for a copy of your data, to correct it, to delete it, to restrict or object to how we use it, or to receive it in a portable form. Email info@worldbridgemeridian.group and we will reply within 30 days. To delete everything, ask us to erase your travel forms and uploaded files as well as your account, and we will confirm when it is done. You also have the right to complain to your local data protection authority.

07 TRANSFERS OUTSIDE THE EU

Your data is stored in the EU, but our team works from the United States and may access it from there. We limit that access to named staff and protect the data as described in section 08.

08 SECURITY

- Access is limited to named staff and checked by the database on every request.
- Files are private, and links to them expire.
- Signed forms are stored with a fingerprint (SHA-256) of the exact document, so any later change can be detected.
- We tell affected travellers without delay if a breach puts their data at risk.

09 CHANGES

If this statement changes, we update the version date above and tell travellers who have an open trip with us.
